ESTABLISHED in 1987, INFOPRO Sdn Bhd is a renowned global provider of banking solutions with representative offices across Southeast Asia and Africa, as well as in China, Singapore, and the United Arab Emirates.

The company offers a wide range of solutions, including conventional banking, Islamic banking, digital banking, and analytics, catering to the evolving demands of increasingly digitally savvy consumers in the financial services sector.

INFOPRO's highly customizable, AI-powered digital solutions enable financial institutions to seamlessly transition to a fully digital banking model or maintain a hybrid approach, allowing them to swiftly introduce innovative financial products to their clients.

“Zero debt throughout 37 years in business.”

DATUK MATTHEW CHUAH WAN HUI
Co-founder and Chief Operating Officer, INFOPRO Sdn Bhd

With a strong commitment to adopting the latest secure technologies and world-class banking practices, INFOPRO has invested over RM500 million in research and development to date and consistently reinvests 25 per cent of its annual revenue to drive continued innovation.

Despite the challenges posed by the pandemic and global economic slowdown, INFOPRO is among the

few IT companies to have generated over RM500 million in foreign exchange for Malaysia, with exports accounting for 80 per cent of its total sales.

Recently, INFOPRO was honoured at the Pikom Digital Excellence Awards 2024, winning the Global Champion category for corporate achievements and the Tech Entrepreneur (Global Market Outreach) award, which were both accepted by its co-founder and chief operating officer, Datuk Matthew Chuah Wan Hui.

What does winning two prizes in the Pikom Digital Excellence Awards mean to you and your company?

Winning the Pikom Digital Excellence Awards is a significant achievement for us. It validates our hard work, enhances our credibility, and opens up new opportunities, motivating us to continue striving for excellence in the tech industry.

How do your solutions help your customers in running their busi-

ness?

Our solutions help customers streamline their operations, enhance productivity, and drive business growth. By customising our offerings to meet specific needs, we enable clients to overcome challenges, optimise processes, and achieve their strategic goals, leading to improved efficiency, cost savings, and a stronger competitive edge.

How do your solutions differ from others?

Our flagship product provides comprehensive solutions across conventional banking, Islamic banking, digital banking, and analytics, incorporating the latest secure technologies and world-class banking practices. With highly configurable, AI-powered digital solutions, our products allow financial institutions to transition seamlessly to a fully digital banking model or maintain a hybrid approach, enabling them to quickly and easily offer innovative financial products to their customers.
