

PIKOM CIO CONFERENCE

PIKOM CIO Conference is PIKOM's annual flagship event that brings together senior technology leaders and decision-makers to discuss emerging technologies, enterprise IT strategies, and digital transformation across industries.

THE RISE OF AUTONOMOUS ENTERPRISE WITH AI

23 JUNE 2026

KLGCC CONVENTION CENTRE

ABOUT PIKOM CIO CONFERENCE 2026

Entering its fourth edition, the PIKOM CIO Conference 2026 convenes CIOs, digital leaders, and technology partners to explore how organisations are becoming autonomous, intelligent enterprises. This year's programme moves beyond AI experimentation to practical implementation and measurable impact.

This year's theme highlights how organisations are evolving into **autonomous, intelligent, and digitally sovereign enterprises** — powered by AI, strengthened by secure data foundations, and guided by strong governance.

The conference balances:

- **Innovation** – AI agents, automation, intelligent platforms
- **Control** – cybersecurity, data protection, governance, compliance
- **Sustainability** – scalable, secure, and responsible digital growth

For our partners, this creates a powerful opportunity to engage CIOs and decision-makers who are actively investing in:

- AI platforms and enterprise AI solutions
- Cloud and hybrid infrastructure
- Cybersecurity and data protection
- Governance, risk, and compliance technologies

PIKOM CIO Conference 2026 is where strategy meets execution — and where technology partners connect directly with organisations building the next generation of autonomous enterprises.
