About PIKOM Cybersecurity Chapter

The PCS Chapter was formed in May 2017 to represent the interest of the cybersecurity sector in Malaysia. The focus of the chapter includes organising events pertaining to related topics and current issues in cybersecurity, promoting cybersecurity as a career of choice within working professionals and collaborating with educational institutions on training initiatives and developing curriculum programs in the area of cybersecurity.

The objectives of PIKOM Cybersecurity Chapter:

1. Creating awareness and provide updated information on cybersecurity in Malaysia.
2. Develop and focus on potential talent in producing experts in the field of cybersecurity.
3. Expanding the cybersecurity market in line with the growth in the ICT industry

Total PCSC members – 100 members

Total Cybersecurity Users – 107 members

Communications and Digital of Malaysia

Chair
Ganesh Kumar Bangah
CommerceDotAsia

E-Commerce Malaysia was established to expand PIKOM's involvement in the eCommerce industry. This initiative aims to bring the Malaysian e-commerce industry to global standards by bringing all end-to-end parties working together under one virtual roof: e-marketplaces such as online retailers and merchants, providers of payment gateways, logistics, and fulfilment, industry players, financial institutions as well as telecommunication and infrastructure service providers.

- a) Represent voice of the e-Commerce merchants in Malaysia.
- b) Promote Malaysian e-Commerce players through regional and global initiatives.
- c) Bring the various players in the e-Commerce ecosystem together to collaborate and cooperate for mutual benefit.
- d) Be the point of contact with the government on e-Commerce related matters.
- e) Increase the awareness on the ease of online shopping.

Response to Industry Concerns

7 December 2022 – GBS Summit 2022 & GBS Malaysia Industry Appreciation Night

GBS Malaysia Summit stands as the pinnacle of thought leadership, bringing together industry luminaries in an annual event meticulously organized by GBS Malaysia. In this unparalleled gathering, visionaries and leaders converge to chart the course for the future, fostering strategic dialogue that propels our industries forward. It's a testament to innovation, a symphony of ideas, and a platform where collective wisdom converges. The GBS Malaysia Summit 2022 was a resounding success, drawing an impressive attendance:

- Registered: 217 participants
- Organizer: 25 key contributors
- Speakers: 13 thought leaders

15 & 16 February 2023 – Northern GBS Outreach – Collaboration with TalentCorp and InvestPenang

Organized by TalentCorp in collaboration with MDEC and GBS Malaysia

As outlined in the PIKOM and TalentCorp MOU, strategic engagements have been initiated to strengthen our collaborative efforts and extend our reach across corridors. This proactive approach is geared towards comprehensively fostering the Digital Global Business Services (GBS) industry, driving talent development, and enhancing employability.

30 May 2023 – TalentCorp GBS Central Region Outreach

Date : 30th May 2023,
Tuesday
Time : 9.30am – 12.30pm
Venue : PIKOM Hall @
PIKOM Office
Attendance : 56pax from 44
organizations

12 May 2023 – GBS Asia Awards Gala Dinner 2022/2023

The GBS Asia Awards stand as a pinnacle in our annual calendar, a flagship event meticulously designed to honor excellence within the Global Business Services (GBS) sector. Each year, we spotlight organizations and individuals who have made remarkable contributions to the development, enhancement, and growth of the GBS industry in Malaysia and beyond. These Awards serve as national beacons, not only recognizing achievements but also setting standards for global best practices—a testament to our relentless pursuit of distinction.

4-6 October 2023 – World Congress on Innovation & Technology (WCIT) 2023

GBS Malaysia at the World Congress on Innovation & Technology (WCIT) 2023, was featured in a distinguished panel session focused on 'Global Business Services: Enhancing Operational Excellence and Strategic Impact through Cognitive Automation and AI Integration.' The WCIT 2023, hosted in Sarawak, marked the 27th World Congress on Innovation & Technology and the 6th International Digital Economy Conference Sarawak 2023

15 June 2023 – Industry-Academia Collaboration (IAC) Workshop: Global Business Services (GBS)

On June 15, 2023, a collaborative event organized by TalentCorp in partnership with MDEC and GBS Malaysia was organised at Glamhall Damansara. Running from 9:00 am to 2:00 pm, the event drew a diverse audience of 75 participants representing 36 organizations. Notably, the event included academia, providing a unique angle and valuable insights.

Date : 15th June 2023, Thursday

Time : 9.00am – 2.00pm

Venue : Glamhall Damansara

Attendance : 75 pax from 36 organizations

15 August 2023 – PIKOM/GBS Malaysia & University Nottingham Malaysia MoU Signing Ceremony

Scope & Objectives

- a) Participating in collaborative planning, conducting research and engaging in talent development, research and knowledge exchange by providing insights for the technology industry in Malaysia and beyond; and
- b) Making available facilities and resources for the purpose of technology ecosystem development and advisory representation in Malaysia.

12 September 2023 – GBS Members Meet 2023

This Members Meet in September 2022, that was graciously hosted by Experian, provided a unique insight into their setup, work culture, and organizational excellence. Attended by 98 participants, this event at Experian's Cyberjaya venue not only facilitated knowledge exchange but also offered a valuable opportunity for branding mileage. GBS Malaysia encourages its members to take the lead in hosting these meets, ensuring each gathering is an insightful afternoon that propels the industry forward.

26 October 2023 – GBS Malaysia Summit 2023

The GBS Malaysia Summit 2023, themed 'D.I.V.E. - Digital Innovation, Value & Efficiency,' unfolded as a dynamic exploration into the transformative impact of digital technologies on the global business services landscape. This annual conference organized by GBS Malaysia, held on October 26th, 2023, at Le Meridien Petaling Jaya, was a gathering of 185 participants.

8 December 2023 – PIKOM-GBS Malaysia Golf Invitational 2023

The inaugural PIKOM GBS Malaysia Golf Invitational 2023, hosted by GBS Malaysia at the Tropicana Golf & Country Resort on December 7th, 2023 was a remarkable day of camaraderie and competition. With 20 flights participating in the golf tournament, the event ended on an elegant Gala Dinner, attended by 130 guests.

An ecosystem overhaul

Beyond the physical infrastructure, however, lies more challenges. The National Tech Association of Malaysia (Pikom) chairman Ong Chin Seong went on to say that there is generally more awareness and investment of resources in ESG across Malaysia-based multinational corporations, public-listed companies and government-linked companies, as well as the local large, medium and small enterprises that participate in the global supply chain.

However, he pointed out that despite growing interest in ESG, the awareness and investment by most small and medium enterprises (SMEs) remain in its infancy.

“Narrowing the gap requires a better understanding of ‘where to invest’ and the ‘know-how’, amongst other things. While we laud the message by the government to prioritise ramping up the nation’s participation in technology and green economy, the nation needs to have a pool of talents that can be subject matter experts in ESG as a sustainable workforce of the future,” he stressed.

This builds on his rationale that the quest to achieve sustainability has to encompass a wider spectrum in addition to technology adoption, such as emerging levers across business models, business ecosystems, business processes, people empowerment, organisational culture, regulatory framework and environmental preservation, among others.

“In addition, the interconnection and alignment of people, process and technology are crucial to ensure we are building a sustainable world. While technology makes it possible, people make it happen,” he opined.

Moreover, it is also important for better metrics and data to benchmark Malaysia’s tech industry against its peers, even as the ESG ecosystem increasingly expands with new players to complete the loop.

Against this backdrop, Ong said it is crucial for industry associations such as Pikom to actively assist its members to navigate the challenging landscape. To do so, it has set up an ESG committee to increase the awareness and encourage

adoption of ESG practices in Malaysia. This has drawn a lot of interest from its members, but he acknowledged that there is still a lot more to be done to collaborate with other stakeholders, such as members, partners, academic institutions, regulatory bodies and government agencies to ensure that the nation’s ESG journey is all-inclusive.

“In an age of dramatic technological advances, we wish to see local tech companies to grasp the opportunity to innovate and hopefully provide access to various ESG digital platforms and solutions to the wider ecosystem.

“At a global level, there are various alliances and bodies driving sustainability frameworks and disclosure standards. Technology, together with political, economic and societal will, are necessary to underpin the ESG ecosystem and sustain it,” he shared.

Sustainable digitisation, digital decarbonisation

Moving forward, Greenie Web founder Ian Chew suggested that there must be a two-pronged focus: Sustainable digitisation - embedding sustainability during digital transformation - and digital decarbonisation, removing carbon emissions associated with existing digital infrastructure, such as websites.

Noting that sustainability and ESG are fairly recent concepts for the majority of society where raising awareness is key, he highlighted that inflationary pressures on the horizon may lead companies that are not fully dedicated to sustainability to cut ESG-related expenditure the moment that budget cuts are necessitated.

Lastly, amongst organisations that are true believers in ESG and sustainability, some are still very focused on physical infrastructure decarbonisation and by extension, exclude or de-prioritise digital decarbonisation.

He said, “Some companies have still not started taking a holistic approach to decarbonisation and this is certainly a challenge.”

As for the sustainability of the electrical and electronic products we use in our daily lives? Now, that’s another conversation to be had.

An Expanding Gig Economy: We Have Little Choice But To Deal With The Growing Pains

By Woon Tai Hai May 5, 2023

- Low-income & low-skilled gig activities do not add real value to economy
- Pikom is confident that various gig issues will be overcome in due time

Like any new phenomenon, we have to take the good with the bad in the case of the gig economy. On the one hand, it offers immediate solutions to businesses and contributes to the economy. On the other hand, it could have adverse consequences on talent development and future economic growth. First, let's be clear on what the gig economy is and who the gig workers are. Briefly, the gig economy revolves around service provision by independent gig workers who take on one-time or short-term

Rising trend in salaries within tech sector

NATION Wednesday, 11 Oct 2023

PETALING JAYA: The average salary in Malaysia still falls behind global industry average even though there is a rising trend in salaries within the technology sector in the last year.

National Tech Association of Malaysia (Pikom) adviser Woon Tai Hai said there is a noticeable strong year-on-year (Y-O-Y) salary growth in this period, contrasting sharply with the modest 2% percentile range growth observed previously.

“Recent findings from Pikom indicate a significant uptick in technology sector salaries over the past 12 months.

ALSO READ: It takes time to get a full-time job

“The continued, consistent growth of Malaysia’s digital economy and concurrent advancements in artificial intelligence (AI) and other cutting-edge technologies have catalysed the creation of novel job roles and opportunities in the tech sector,” he said when contacted yesterday.

Human Resources Minister V. Sivakumar had on Sunday said there has been a decrease in unemployment rate to 3.5% recorded in the first quarter of the year compared to 3.6% in the preceding quarter in 2022.

Bayaran gaji pekerja sektor teknologi meningkat ketara

Transformasi digital pantas antara faktor kenaikan 13.9 peratus tahun ini

Oleh Mohd Zaky Zainuddin
zaky@bh.com.my

Pasaran pekerjaan digital menyaksikan pertumbuhan dua angka dari segi aspek gaji, mencerminkan ekonomi yang memanfaatkan teknologi secara bijak untuk meningkatkan kecekapan dan produktiviti.

Penasihat dan Pengerusi Penyelidikan Persatuan Teknologi Nasional Malaysia (PIKOM), Woon Tai Hai, berkata sektor teknologi telah mengalami pertumbuhan gaji tahun ke tahun yang ketara sebanyak 13.9 peratus pada 2023, berbeza dengan pertumbuhan julat 2 peratus yang diperhatikan dalam dua tahun sebelumnya.

"PIKOM juga mengunjurkan pertumbuhan gaji sebanyak 4.13 peratus tahun hadapan dan purata kadar pertumbuhan tahunan (AAGR) 6.45 peratus sepanjang dekad akan datang," katanya kepada media selepas pengumuman Tinjauan Pasaran Kerja Ekonomi dan Digital 2023 di Petaling Jaya, semalam.

Tai Hai berkata, pertumbuhan

Tai Hai (kiri), Liew dan Ketua Pegawai Eksekutif PIKOM, Ong Kian Yew (kanan) menunjukkan laporan Tinjauan Pasaran Kerja Ekonomi dan Digital 2023 di Petaling Jaya, semalam. (Foto: Aziah Azmee/BH)

profesional mahir berikutan COVID-19, ringgit yang semakin lemah, transformasi digital yang dipercepatkan dalam sektor swasta dan dasar kerajaan ke hadapan.

"Pertumbuhan ekonomi yang sihat pada tahun sebelumnya selalu menunjukkan kemasukan pekerjaan dan kenaikan gaji seterusnya pada tahun berikutnya, biasanya tertinggal enam hingga 12 bulan," katanya.

Data lebih terperinci menunjukkan gaji yang diiklan dijangka meningkat 13.9 peratus, didorong pertumbuhan dalam sektor bu-

Bagaimanapun, penentu ukuran semula dijangka pada 2024, di mana pertumbuhan gaji yang diiklan dijangka stabil pada 4.1 peratus, menyederhana daripada lonjakan tinggi yang dialami tahun ini.

Sementara itu, ekonomi digital Malaysia dijangka menyumbang 24.4 peratus kepada Keluaran Dalam Negara Kasar (KDNK) Malaysia tahun ini, sebelum diunjur terus berkembang kepada 25.5 peratus pada 2025.

Timbalan Pengerusi PIKOM,

dan 23.4 peratus (2022) disokong unjuran pertumbuhan KDNK sebanyak 4.2 peratus, menandakan momentum menaik yang kukuh.

"PIKOM percaya momentum ini akan mengukuhkan kedudukan yang kukuh dengan ekonomi digital dijangka mencecah 25.5 peratus sumbangan kepada KDNK pada 2024, walaupun ekonomi negara diramalkan pertumbuhan 4.5 peratus.

"Peningkatan teguh ekonomi digital, berdaya tahan walaupun di tengah-tengah pergolakan eko-

Pikom adviser and research chair Woon Tai Hai said the technology sector has experienced a notable year-on-year salary growth of 13.9% in 2023, a stark contrast to the 2% percentile range growth observed in the previous two years.

"Pikom is projecting a 4.13% salary growth for 2024 in the sector, and an average annual growth rate of 6.45% over the next decade," he said.

Woon attributed this to the intensified competition for talent, the repatriation of skilled professionals post-pandemic, a weakening ringgit, accelerated digital transformation in the private sector and forward-thinking government policies.

Pikom CEO Ong Kian Yew said benchmarking technology salaries is pivotal as it serves as a lens through which Malaysia's competitive standing within the global and regional tech landscapes can be viewed, thereby nurturing innovation and informing policy-making. - Bernama

Pikom expects digital economy to contribute 24% to GDP this year

PETALING JAYA: Malaysia's digital economy is anticipated to contribute 24.4% to gross domestic product (GDP) in 2023 and rise further to 25.5% next year, the National Tech Association of Malaysia (Pikom) said.

Deputy chairman Alex Liew said the momentum will hold its strength amid the national economy forecast to grow 4.5% in 2024.

"The robust escalation of the digital economy, even amid global

economic upheavals, has cemented its position as a crucial pillar of Malaysia's economic structure," he said at a press conference on Malaysia's Digital Job Market and Economic Outlook 2023/2024 here yesterday.

On the employment front, he said the digital job market has witnessed double-digit growth in tech salaries, mirroring an economy that is judiciously harnessing technology for heightened efficiency and productivity.

PIKOM : 上升势头强劲

数字经济贡献GDP逾24%

(吉隆坡 12 日) 大马电脑及多媒体工业协会 (PIKOM) 研究报告显示, 我国数字经济预计今年将为国内生产总值 (GDP) 贡献 24.4%, 而明年贡献将再攀升至 25.5%。

PIKOM 副主席刘清源指出, 2021 和 2022 年数字经济分别贡献了我国 GDP 23.2% 和 23.4%。而上述数据显示数字经济领域正在呈现强劲的上升势头。

"即使在全球经济动荡的情况下, 数字经济也具有韧性, 这证明了它作为马来西亚经济结构重要支柱的地位。" 他今日在该协会总部出席

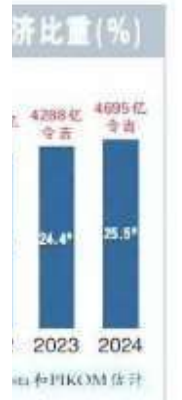

研究报告发布仪式。国家银行、Statista 和 PIKOM 估计。

另外, 数字经济市场见证了技术职位薪资的双位数增长, 反映出经济在利用技术来提高效率和生产力。

PIKOM 的研究报告也显示, 在 2022 年 GDP 增长高达 8.7% 的推动下, 数字人才的广告薪资今年预计实现双位数

PIKOM REPORT 'Digital economy may account for 25pc of GDP'

JOHN GILBERT
KUALA LUMPUR
bt@nst.com.my

THE digital economy may account for an impressive 24.4 per cent to Malaysia's gross domestic product (GDP) this year amid expectations of a 4.2 per cent economic growth.

"Contribution of the digital economy to the GDP, which came in at 23.2 per cent in 2021 and 23.4 per cent in 2022, is also expected to rise further to 24.5 per cent next year," said National Tech

Association of Malaysia (Pikom) deputy chairman Alex Liew at the "Insights into Malaysia's Digital Job Market & Economic Outlook 2023/24" briefing yesterday.

"The digital economy's strategic roles in creating employment, facilitating remote work during and even post-Covid-19 pandemic and fostering technological advancement and local innovation have propelled the nation forward."

On employment, the digital job market has witnessed a double-digit salary growth, mirroring an economy that is harnessing tech-

nology for heightened efficiency and productivity.

The domestic tech sector has seen notable 13.9 per cent year-on-year salary growth this year.

Pikom is projecting a 4.13 per cent year-on-year salary growth for the tech sector next year, with an average annual growth rate (AAGR) of 6.45 per cent over the next decade.

However, a recalibration is expected in 2025, where advertised salary growth is projected to stabilise at 4.1 per cent, moderating from the high surge experienced this year.

PIKOM

Highlights of the Month

FutureSDG 2023 was held successfully at PICOM on 19-21 Aug 2023.

PIKOM had the opportunity to have YB Nohor Badli, Minister of Communications and Digital... launch the "Malaysia Data Security Governance Reference Book" published by PICOM with support from MDEC and CyberSecurity Malaysia at the event.

The book will be able to assist organisations to plan their data security strategy and promote... based on international standards. It can be accessed from the PICOM website.

Thanks to PICOM's Executive Director, members, friends, media, vendors, sponsors, and CSRPs... joined the activities with us today!

Highlights of the Month

PIKOM Industry Internship Program (PIIP)

Develop your PIKOM Industry Internship Program here.

We are excited to inform you of the new initiative taken by PICOM to boost the industry in terms of development of our graduates including setting up share certified graduate listing under the company's name.

The goal is to provide students with a well-structured platform that provides hands-on learning opportunities that will help them develop the necessary skills and knowledge required for the workplace, allowing them to succeed in their chosen profession. Industry will also benefit from getting more ready future employees.

A few private universities that have been approached are excited about the program and ready to get it off with us. As the program grows, more universities will be invited.

You can support the initiative by participating in our survey on https://www.surveymonkey.com/r/PIIP2023.

Thank you for your interest and for the support to our initiative in the industry of graduates and so on.
